

BL-24

Bluetooth Smart Irrigation Controller

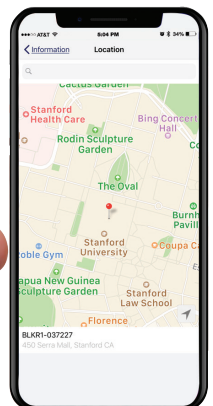

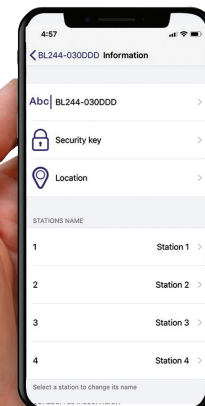

K-Rain's BL-24 bluetooth operated controller now has an updated application uniting users with new time-saving and productivity-enhancing benefits.

- Change controller settings via smartphone, tablet or web browser – Built in wireless connection.
- One easy app does it all – Manage up to 400 controllers from one app.
- Geo-location feature – Shows every site, every controller, every program.
- Setting change updates – Updates you and your field team any time a setting is changed.
- 4, 6, 9 and 12 station models – Ability to install a controller that equals the number of valves in a valve box.

Automatically push program updates from the cloud to the field
